

who may run for state office on the state wide level you people who may have aspiration for United States Senator or House of Representatives, you will find out that you the day when they put any halts unto you where you can't go down and get money from people to help you run because you can't pay it yourself. I would be the first one to admit that everytime you take a dollar from them they will say indication of an obligation. Not bad, that is just the way we live. Senator Curtis when he took the \$300,000 and I only wish that I had it, I would have been there instead of him. But when he did it he was on the finance committee and what do they do? They write tax laws. You people working then on the revenue committee over a period of years know that we write tax laws, and you know how much we listen to other people who are affected by tax laws and how little we exercise our own judgment and how little we do what we know that we ought to do. I don't want to explain to you what politics is, you are not going to change it, you ought to join it and take it for what it is.

PRESIDENT: Very good, just a second. Senator Warner for what purpose do you rise?

SENATOR WARNER: I don't want to delay but I would like to suggest Mr. President that to expedite things I would offer an amendment to strike those sections which I know are controversial that are left and only retained in the bill the changes in requirement for recording to as they are now and I think that it is important that if that much could be done at this session because a lot of fund raising is going to occur before we can act next session, and if I would take out the about 7 sections which I know are highly controversial I would strike those and then the only thing that would be left in this bill would be the updating of the reporting procedures as far as they now exist.

PRESIDENT: Well, lets see what will happen here. Senator Carpenter, do you want to comment.

SENATOR CARPENTER: Let me suggest lets adopt this Senator's amendment and I will support moving the bill now, I had my run at it and I'm not unhappy or dissatisfied, lets move the bill from General File because the majority of the body wants it and that is the way it ought to be. That is what the word compromise means. You have your say, you loose and what-of-if. I hope that we adopt these amendments when we do, then lets the Senator move the bill to E & R initial.

PRESIDENT: Senator Warner, what is your pleasure here? We have your amendments up through page.....through section 16 and they ran into the buzz saw after that when we got into section 17, is that correct?
